EXPERIENCE

Projects

- **IOT Based Safe Driving System** - It works on Arduino System and Real Time Database which detect the alcohol level of the driver before starting the vehicle and blocks the ignition if threshold is reached , also contacting family members about the situation.
- **Courier Service System (Dynamic Web Project)** - It is a 3 layered project in which Admin ,Customer and Delivery Boy can login . Used to allot a courier to delivery boy according to user specifications and Administration Process Confirmation. it is made using J2EE , Oracle , Html , CSS and JS.

Internship

- Successfully Completed one month Internship on JAVA Technology in **Middleware Information Technology Services Pvt Ltd** .
- During the Internship I was involved to develop projects and work in Professional Environment .
